

Dutch Student Award for Engineering Geology 2017

Ingeokring, the Netherlands National Group of the International Association for Engineering Geology and the Environment (IAEG), has established a prize for the best thesis (MSc, ir. or drs.) in the field of Engineering Geology submitted to a Dutch University or Institute of higher education. The prize consists of a sum of 500 Euro and a certificate, to be handed out at the annual symposium of the Ingeokring in the autumn of 2017.

The thesis must be a contribution to the application of earth scientific knowledge to the solution of problems in civil engineering, mining engineering or environmental engineering.

The Award Committee will pay special attention to:

- Relevance for earth sciences and engineering
- Scientific quality
- Originality of approach
- Quality of presentation

We invite the submission of theses defended in the period July 2015 – June 2017.

Individuals can send in their own thesis or the thesis of others. Membership of the Ingeokring is not required.

A digital version of the thesis in pdf format or a set of three complete hard copies of the thesis (including figures, photographs, and annexes) has to be submitted by **June 30, 2017** to the secretary of the Award Committee.

The Award committee consists of:

- Dr. Robert Hack (Twente University), chair
- Ir. Oscar Mooijman (Royal Haskoning-DHV)
- Ir. Gerrit de Vries (Marine Sampling Holland)

Secretary:

Dr. Dominique Ngan-Tillard
TU Delft, Faculty of Civil Engineering and Geosciences
Geo-engineering Section
